

EASYCare **Efflorescence Remover+**

Remove salt stains from brickwork

1 litre super concentrate bottle

Efflorescence Remover+ is a non-acid chemical with the added advantage of neutralising the salts on and within the substrate reducing the possibility of a re-occurrence of the white deposits.

Features & Benefits

A professional strength product to neutralise salt deposits from walls, paving, paths and block driveways.

- Designed as long-term solution to a difficult problem, this non-acid product penetrates the substrate to make the salts water-soluble. These can then be washed away naturally or removed with a power washer
- Unlike traditional acid removers which dissolve the surface making it more porous, Efflorescence Remover+ does not attack the substrate
- 1 Litre Super Concentrate - up to 60m²

APPLICATION

- SHAKE THE CONTAINER FOR 30 SECONDS BEFORE EACH USE
- Apply a saturated coat to affected area only using a garden spray, watering can or brush
- Dilute 1 dose (100ml) in 1 litre of water
- For heavy contamination add 2 doses (200ml) to 1 litre of water
- Leave for at least 1 hour to act then re-apply
- Leave for 24 hours to allow deep penetration and neutralisation of the salts
- After 24 hours wash the surface with a power washer or hose and a stiff brush

Precautions

- **Always test a small inconspicuous area before use to ensure surface compatibility, performance and finish is acceptable**
- Remove loose dirt, moss & other debris from the surface prior to treating
- Keep children/pets/animals away until cleaning process is complete and surface is dry
- Do not allow to come into contact with plants, shrubs or grass
- Ideal operation temperature between 10°C and 20°C . As a guide ensure the surface is cool to touch
- Do not apply during frost or when temperature is below 5°C
- When used in cooler temperatures, effectiveness may be reduced and longer cleaning time may be required
- Do not apply in direct sunlight
- Clean tools and other equipment with warm soapy water after use

Storage

- Store between 5°C and 25°C and keep container tightly closed
- Keep out of direct sunlight and protect from frost in original container
- Keep out of reach of children

Health & Safety

- Causes severe skin burns and eye damage
- Do not breathe fumes/vapours
- Wear protective gloves/protective clothing/eye protection/face protection
- **IF ON SKIN:** Gently wash with plenty of soap and water. Take off contaminated clothing and wash before reuse. If skin irritation or rash occurs seek medical advice/attention
- **IF IN EYES:** Bathe the eye with running water for 15 minutes. Promptly wash eyes with plenty of water while lifting the eye lids. Continue to rinse for at least 15 minutes and get medical attention. Remove contact lenses if possible and safe to do so
- **IF SWALLOWED:** Rinse mouth. Do NOT induce vomiting. Wash out mouth with water. If conscious, give half a litre of water to drink immediately. Transfer to hospital as soon as possible
